

HELMETS ON KIDS

a Community Partnership

Legate and Associates Donates \$10,000 for Helmets on Kids

Helmets on Kids, about to launch its fourth distribution of helmets to elementary school children in London this June, received a \$10,000 donation from the London law firm of Legate & Associates. News of this significant donation was received by the nine partners in the Helmets on Kids program with immense gratitude. While regular fundraising to support the program will continue, Legate's donation will ensure that it will continue to grow and flourish. The funds are being maintained in a designated fund at the Brain Injury

Association.

Several other communities in Ontario are considering starting their own Helmets on Kids programs: Stratford, Kingston, Windsor, Kitchener and Sudbury. Other communities interested in starting the program should contact a local lawyer who is a member of the Ontario Trial Lawyers Association (OTLA).

If you need suggestions, contact OTLA's Executive Director, Marsha Phelps, at 1-800-567-3047 or by email, marsha@otla.com.
